BINAYA INDIE GLOBAL

5KG COCOPEAT BLOCKS

Raw Material Source	The fresh green coconut
Dimensions (cm)	30 x 30 x 12 ± 3
Fiber/impurities (w/w)	Max 2.0 %
Moisture % (w/w)	20 ±3%
Product Type	Pressed Block
Electric Conductivity	EC > 0,5 mS/cm. High EC
Electric Conductivity	EC < 0,5 mS/cm. Low EC
pH	6.7
Packaging	Straped & Wraped pallet
Expand	70- 80 liter
MOQ	1 Container 40 ft HC

WHY COCOPEAT IS THE RIGHT CHOICE?

The main reason to use cocopeat is that it is eco-friendly, renewable, and offers far superior performance compared to regular soil or peat moss for plant growth

USES OF COCOPEAT

Primary Growing Medium / Soil Substitute

Implementing energy-saving technologies to reduce consumption.

Soil Conditioner / Amendment

Adopting recycling and composting practices to minimize waste.

Potting Mix Formulation

Partnering with eco-friendly suppliers to ensure responsible sourcing.

GRADE-A RUBBERIZED & INDUSTRIAL-GRADE COCO BRISTLE FOR AUTOMOTIVE & BEDDING MANUFACTURING

Cocobristle : The strongest, longest, and stiffest fibers made from selected coconut fibers. Premium natural coconut fiber designed for industrial applications, including mattress and bedding manufacturing.

ADVANTAGES

ECO-FRIENDLY MATERIAL

Made from renewable coconut husk, helping manufacturers explore more sustainable material options

DURABLE FIBER

Natural coconut fiber is known for its resilient and durable characteristics

INDUSTRIAL SUPPLY

Supplied for industrial manufacturing requirements and bulk orders

WHY CHOOSE COCOBRISTLE

ADVANTAGES

- ✓ Mold & Mite Resistant:
  Its natural characteristics make it resistant to mold growth and dust mites
- ✓ Natural Elasticity & High Resilience:
  This fiber has great springiness and a strong rebounding force, helping the mattress maintain its shape and preventing it from sagging over long periods of time.
- ✓ Optimal Air Circulation:
  The hollow structure of the fibers creates excellent airflow, making the mattress cooler and more comfortable to use.

COCOFIBER: Natural Strength for Sustainable Future

Premium Quality Coconut Coir for Agriculture, Industry, and Eco-Solutions

We transform Nusantara's coconut husk waste into high-value natural material solutions. Processed with modern technology and strict quality control, we are here to consistently meet the demands of global industries and modern agriculture in an eco-friendly manner

Key Values :

- 100% Organik & Biodegradable
- Export-Grade Quality
- Stable Supply Capacity

BINAYA INDIE GLOBAL

Selected fiber with high purity levels, perfect as raw material for high-standard industries

Spesifications

Raw Material Source	Coconut husk
Length (cm)	5 – 25 cm Mixed
Fiber/Impurities (w/w)	≤ 3%
Moisture % (w/w)	15% – 18%
Color	Brown
Volume Bale (cm)	100 x 70 x 50 cm
Type Product	Fiber
Water Content	20-40%
Packing	Bale
MOQ	2 Container 40 ft

COCO POT: Grow Naturally, Care for the Earth

100% Biodegradable Eco-Friendly Pot Solutions for Optimal Plant Growth and Interior Design Vases

Advantages

Transform your gardening with natural coconut fiber-based pots. Coco Pot is designed not only as an aesthetic plant container but also as a plastic-free solution that naturally biodegrades into the soil, helping roots breathe better

Website
www.binayaindieglobal.id

BINAYA INDIE GLOBAL

Key Benefits

Zero Plastic Waste Solution: Dramatically reduces polybag plastic waste while enriching the soil as the pot decomposes

use

- The perfect solution to beautify balconies, patios, or cafes with an urban jungle concept
- The ultimate innovation for modern farmers and nurseries. When mature, the pot can be planted directly into the soil without removal, preventing root shock

Size Specifications

- Raw Material Source : The fresh green coconut husk
- Bottom Diameters (cm) : 9 cm
- Color : Brown
- Top Diameters : 16 cm
- Height (cm) : 14,5 cm
- Packing : Box
- MOQ : 100 pcs

Alternative Energy Sources

100% Biodegradable

Naturally biodegradable without leaving any plastic residue

Superior Root Health

Allows roots to grow through the pot walls, enabling shock-free transplanting

Excellent Aeration & Drainage

Optimal air and water circulation for healthier root growth

Aesthetic & Earthy Look

Natural, earthy aesthetic for stylish indoor and outdoor decor

BINAYA INDIE
GLOBAL

Biodegradable Coir Pot for Direct Planting

Designed to be planted directly with the plant, allowing the plant and pot to continue growing together on one journey

BINAYA INDIE GLOBAL

COCOCHIP HUSK

Natural Versatility for Plants & Pets

The ultimate solution for optimal root aeration. Our Coco Chip Husk locks in moisture evenly, prevents root rot, and is ideal for Aroids, Orchids, and hydroponics
